China RoHS Project
Dear customer,

As per the obligations defined in the "Administrative Measures for the Restriction of Hazardous Substances in Electric Appliances and Electronic Products" called China RoHS and released January 21st 2016 which requires to declare the presence of use of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE) flame retardant, you will find attached below our best information, as of the date of publication of this information, regarding the presence of Hazardous Substances Schneider Electric products.

For products outside the legal scope, a declaration, only for information, could be provided.

This information will evolve over time, in function of the improved knowledge resulting from both additional information provided by our suppliers and our own investigations.

Since several years, China RoHS and RoHS Europe are Schneider Electric priorities as far as the removing of hazardous substances from its products is concerned.

In accordance with the Environment policy of our Company, we continuously work towards products and services which reduce the impact on the environment or an human health when used for their intended purpose and in conditions stated in the documentation provided by Schneider Electric.

At end of life, we invite you to follow appropriate waste and recycling procedures.

In case the product is inside the legal scope of RoHS, please note that this document is not the CE declaration. To access to the CE declaration, please refer to the [Customer Care Centers](#)

Best Regards,

Vanessa MILER-FELS
VP Environment

	线缆和线缆附件 Cables & cabling accessories	O	O	O	O	O	O
	本表格依据SJ/T11364的规定编制。 O: 表示该有害物质在该部件所有均质材料中的含量均在GB/T 26572规定的限量要求以下。 X: 表示该有害物质至少在该部件的某一均质材料中的含量超出GB/T 26572规定的限量要求。						
	This table is made according to SJ/T 11364. O: indicates that the concentration of hazardous substance in all of the homogeneous materials for this part is below the limit as stipulated in GB/T 26572. X: indicates that concentration of hazardous substance in at least one of the homogeneous materials used for this part is above the limit as stipulated in GB/T 26572.
